CA Class II UIC Oversight: In response to the State's Program Revision Plan submitted on February 6, 2014, EPA issued a letter on March 9, 2015 concurring on key aspects of the State's plan and setting out a schedule of required activities and deliverables, with target milestones and compliance deadlines for returning CA's Class II UIC program to compliance. As the State implements the plan, EPA will continue our heightened oversight to ensure that the State's oil and gas UIC program meets federal requirements. (Albright, 2-3971)

CA Class II UIC Aquifer Exemptions: We are scheduled to join DOGGR and the State Board at a second public workshop on aquifer exemptions that will be held 3/24 in Long Beach. (Albright, 2-3971)
